Viewpoint Solutions

Vista™ by Viewpoint

Established in 1940, Wellam Constructions Pty Ltd - a National Prequalified Contractor - services the Greater Geelong region and beyond. Wellam

Constructions delivers quality products on time and on budget and its range of services extends beyond outstanding workmanship; they pride themselves on developing excellent working relationships with clients.

Wellam Constructions began looking for a new integrated technology solution for the growing business as well as a solution to better track job costs. Wellam Constructions was tracking most of the business on paper and the system wasn't providing the information team members needed to become more efficient.

We Can Help

Wellam has seen vast improvements in reporting, tracking and billing since moving to Vista by Viewpoint. According to Anne Preston, Accounts Clerk at Wellam Constructions, "Having everything in a central location has made it easier for all to access the information they need, when they need it, right from their desktop. Also, the varying levels of access make sure the right information is only delivered to appropriate parties."

Wellam Constructions uses Vista's Project Management module extensively. "We've removed much of our old paper filing and all project data is now contained within Vista, helping members of a project make better, faster decisions," offered Anne.

In addition, "Viewpoint has allowed us to overlap roles when required. It works with Payroll and also in Project Management with the issuing of purchase orders."

Notifications in the system help Wellam Constructions ensure invoices are approved and renewable records and services are continually kept up to date.

We'd love to share more

To learn why so many construction companies select Viewpoint as a technology partner, visit viewpoint.com.au.

"I know that my job is easier and when someone needs specific information, I'm able to find it without going back to the filing cabinets and shuffling through all the paperwork. All that information is now in Vista."

-Anne Preston, Accounts Clerk
